

Traffic from Bolte Bridge heading to Lorimer Street / Kings Way

If you are heading to Docklands (Lorimer Street) or Kings Way, you will need to get into the left lane on the Bolte Bridge.

Please note:

- The middle lane will take people to the CityLink Tunnels and Power Street
- The right lane will take people to the West Gate Bridge and Geelong.

You will need to take the original Bolte Bridge exit to the West Gate Freeway – following the green signs that say ‘Lorimer Street / Docklands / Kings Way’.

Once you are off the Bolte Bridge, look out for the Lorimer Street exit on your left.

If you are heading to Kings Way, you will pass the Lorimer Street exit and your lane will merge right with traffic that has come from the West Gate Bridge. You'll know that you are going the right way if you pass through one of the portals.
